SMP-Q-AP

SCALA MEDIA PLAYER

The Scala Media Player-Q-AP is a Dual 4k/ Quad FHD output digital media player that comes with Intel Core i5 processor that delivers enterprise performance and seamless playback of 4K content.

An optimized architecture ensures high quality performance throughout its entire lifetime. System hardening minimizes vulnerabilities and delivers robust system security. The media player's fanless design keeps it protected from dust and debris, ideal for any digital signage solution in any environment. It also features hardware EDID emulation to ensure uninterrupted playback even if a display is powered on/off or disconnected and reconnected. This maintains a seamless viewing experience without any disruption.
